Summary

Data driven analyst transitioning from a background in Mathematics Education. Highly motivated individual looking to take on new challenges to grow my applied mathematics skills. Organized and hard-working problem solver with the desire to help people.

Skills

Excel | Tableau | SQL | Data Analysis | Time Management | Organization | Multitasking | Teaching

Data Projects

Education Data: Created a dashboard in **Tableau** to analyze education data and provide recommendations to increase test scores and college attendance rates.

Sales & Marketing Data: Used **Excel** to analyze marketing trends within a delivery app and used pivot tables to create data visualizations.

Financial Data: Created queries in **SQL** to analyze loans and grants from the World Bank Group to discover which countries have the most transactions and owe the most to the IDA.

Healthcare Data: Used **SQL** to analyze diabetic patient trends for time spent in the hospital and the number of procedures.

Education

Master of Education: Curriculum and Instruction, 05/2016
Schreiner University - Kerrville, TX

Bachelor of Arts: Mathematics with Teacher Certification, 05/2013
Schreiner University - Kerrville, TX
